161353 AND UP

DISTRIBUTION STATEMENT C. Distribution authorized to U.S. Government agencies and their contractors to protect publications required for official use or for administrative or operational purposes only, determined on 1 May 2000. Other requests for this document shall be referred to Commanding Officer, Naval Air Technical Data and Engineering Service Command, Naval Air Station North Island P.O. Box 357031, Building 90 Distribution, San Diego, CA 92135-7031.

DESTRUCTION NOTICE - For unclassified, limited documents, destroy by any method that will prevent disclosure of contents or reconstruction of the document.

*Published by Direction of the
Commander, Naval Air Systems Command*

NATEC ELECTRONIC MANUAL

NUMERICAL INDEX OF EFFECTIVE PAGES/FIGURES

List of Current Changes

Original01 Jul 96 Change11 Jul 97 Change.....2.....1 Aug 98 Change.....3.....1 May 00
 Change41 Nov 02

Only those pages/figures assigned to the manual are listed in this index. If the numerical sequence is broken in the list, the missing page/figure numbers have not been assigned to this manual. Insert Change 4, dated 1 November 2002. Dispose of superseded pages/figures. Superseded classified pages/figures shall be destroyed in accordance with applicable security regulations. The portion of text affected in a change or revision is indicated by change bars or the change symbol "R" in the outer margin of each column of text. Changes to illustrations are indicated by pointing hands, change bars, or MAJOR CHANGE symbols. Changes to diagrams may be indicated by shaded borders.

Total number of pages in this manual is 208 consisting of the following:

WP/Page Number	Change Number	WP/Page Number	Change Number	WP/Page Number	Change Number	WP/Page Number	Change Number

LIST OF TECHNICAL PUBLICATION DEFICIENCY REPORTS INCORPORATED

ORGANIZATIONAL, INTERMEDIATE AND DEPOT MAINTENANCE

STRUCTURE ILLUSTRATED PARTS BREAKDOWN

CENTER FUSELAGE

This WP supersedes TPDR WP, dated 1 May 2000.

-
1. The TPDRs listed below have been incorporated in this issue.

IDENTIFICATION NUMBER/ QA SEQUENCE NUMBER	LOCATION
None	

INTRODUCTION

ORGANIZATIONAL, INTERMEDIATE, AND DEPOT MAINTENANCE

STRUCTURE ILLUSTRATED PARTS BREAKDOWN

CENTER FUSELAGE

This WP supersedes INTRO WP, dated 1 July 1997.

1. PURPOSE.

2. This manual is one of a series of manuals that make up the structure illustrated parts breakdown

(IPB). Each IPB figure has a parts list and illustration for the requisition, authority for use, and identification of parts. The IPB is divided into five manuals as shown below:

A1-F18AC-SRM-410	Structure Illustrated Parts Breakdown - Wing
A1-F18AC-SRM-420	Structure Illustrated Parts Breakdown - Forward Fuselage
A1-F18AC-SRM-430	Structure Illustrated Parts Breakdown - Center Fuselage
A1-F18AC-SRM-440	Structure Illustrated Parts Breakdown - Aft Fuselage
A1-F18AC-SRM-450	Structure Illustrated Parts Breakdown - Index

3. REQUISITION AND AUTOMATIC DISTRIBUTION OF NAVAIR TECHNICAL MANUALS.

4. Procedures to be used by Naval activities and other Department of Defense activities requiring NAVAIR technical manuals are defined in NAVAIR 00-25-100 and NAVAIRINST 5605.5.4A.

5. To automatically receive future changes and revisions to NAVAIR technical manuals, an activity must be established on the Automatic Distribution Requirements List (ADRL) maintained by the Naval Air Technical Data and Engineering Service Command (NATEC). To become established on the ADRL, notify your activity central technical publications librarian. If your activity does not have a library, you may establish your automatic distribution by contacting the Commanding Officer, NATEC, Attn: Distribution, NAS North Island, Bldg. 90, P.O. Box 357031, San Diego CA 92135-7031. Annual reconfirmation of these

requirements is necessary to remain on automatic distribution. Please use your NATEC assigned account number whenever referring to automatic distribution requirements.

6. If additional or replacement copies of this manual are required with no attendant changes in the ADRL, they may be ordered by submitting a MILSTRIP requisition in accordance with NAVSUP 485 to Routing Identifier Code "NFZ". MILSTRIP requisitions can be submitted through your supply office, Navy message, or SALTS to DAAS (Defense Automated Address System), or through the DAAS or NAVSUP web sites. For assistance with a MILSTRIP requisition, contact the Naval Inventory Control Point (NAVICP) Publications and Forms Customer Service at DSN 442-2626 or (215) 697-2626, Monday through Friday, 0700 to 1600 Eastern Time..

7. MANUAL ISSUE DATE.

8. The date on the title page is the copy freeze date. No additions, deletions, or changes are made after the manual issue date, except last minute safety of flight or required maintenance changes. Data collected after the manual issue date will be included in later changes or revisions of the manual.

9. EFFECTIVITIES.

10. Effectivity notes on manual title pages, work package figure titles, and within a work package indicate the aircraft or software program to which the data applies. If no effectivity note appears on the work package title page, the work package has the same effectivity as shown on the manual title page. The effectivity notes may use:

- a. Type, model, and series
 - b. Bureau number (tail number)
 - c. Combination of type, model, series, and bureau numbers
 - d. Part number or serial number
 - e. Technical directive number
 - f. Configuration/identification number
11. The table below shows examples of effectivity notes and their meanings:

Effectivity Note Examples

Effectivity Note	Definition
160777 AND UP	Applicable to all F/A-18A, F/A-18B, F/A-18C and F/A-18D for bureau numbers listed.
F/A-18A, F/A-18B	Applicable to all F/A-18A and F/A-18B.
F/A-18C, F/A-18D	Applicable to all F/A-18C and F/A-18D.
F/A-18A	Applicable to all F/A-18A, but not F/A-18B, F/A-18C and F/A-18D.
F/A-18B	Applicable to all F/A-18B, but not F/A-18A, F/A-18C, and F/A-18D.
F/A-18C	Applicable to all F/A-18C, but not F/A-18A, F/A-18B, and F/A-18D.
F/A-18D	Applicable to all F/A-18D, but not F/A-18A, F/A-18B, and F/A-18C.
F/A-18A, F/A-18C	Applicable to all F/A-18A and F/A-18C, but not to F/A-18B and F/A-18D.
F/A-18B, F/A-18D	Applicable to all F/A-18B and F/A-18D, but not to F/A-18A and F/A-18C.
F/A-18A 160775, 160777 THRU 160782	Only applicable to some bureau numbers of F/A-18A. Not applicable to any F/A-18B, even if a F/A-18B bureau number is within the numbers listed.

Effectivity Note Examples (Continued)

Effectivity Note	Definition
F/A-18C 163427, 163430 THRU 163456	Only applicable to some bureau numbers of F/A-18C. Not applicable to any F/A-18D, even if a F/A-18D bureau number is within the numbers listed.
F/A-18B 160784 AND UP	Only applicable to some bureau numbers of F/A-18B. Not applicable to any F/A-18A, even if an F/A-18A bureau number is within the numbers listed.
F/A-18D 163434 THRU 163457	Only applicable to some bureau numbers of F/A-18D. Not applicable to any F/A-18C, even if a F/A-18C bureau number is within the numbers listed.
F/A-18B 160784 AND UP, F/A-18D	Applicable to some bureau numbers of F/A-18B. Not applicable to any F/A-18A, even if an F/A-18A bureau number is within the numbers listed. Also applicable to all F/A-18D aircraft.
F/A-18C, F/A-18D 163434 THRU 163457	Applicable to all F/A-18C aircraft. Applicable to some bureau numbers of F/A-18D.
160775 THRU 160785 BEFORE F/A-18 AFC 772	Applicable to F/A-18A and F/A-18B for bureau numbers listed, before modification by technical directive.
161213 AND UP; ALSO 160775 THRU 160785 AFTER F/A-18 AFC 772	Applicable to aircraft modified during production; also applicable when affected aircraft have been modified by technical directive.
160775 THRU 160785; WHEN NO. 2 CONTROL PANEL P/N XXXX-X IS INSTALLED	Applicable to F/A-18A and F/A-18B for bureau numbers listed if panel P/N XXXX-X is installed. (Configuration before AVC)
161213 AND UP; ALSO 160775 THRU 160785; WHEN NO. 2 CONTROL PANEL P/N XXXX-Y (AVC-102) IS INSTALLED	Applicable to aircraft modified during production; also applicable to aircraft components modified to the production configuration by technical directive. (Configuration after AVC)
P/N MBEU65101-9, MBEU65101-10 & MBEU65105-3	Applicable to assemblies which are interchangeable between aircraft.
ENGINE NO. 215101 THRU 215109	Applicable to assemblies which are interchangeable between aircraft, but configurations can not be identified by part number.
CONFIG/IDENT NUMBER 84A	The CONFIG/IDENT Number is the program load identification number which identifies the software program loaded in specific programmable units. Refer to A1-F18AC-SCM-000 for CONFIG/IDENT Number tables.

12. TECHNICAL DIRECTIVES.

13. Technical directives are documents which provide instructions to incorporate and record retrofit configuration modifications or inspection instructions to delivered aircraft, or aircraft components.

14. AIRFRAME CHANGE (AFC) AND AIRBORNE

SOFTWARE CHANGE (ASC) . Technical directives which change configuration of aircraft structure or equipment installation, i.e. AFC, will list aircraft bureau numbers in effectivity notes and show before and after the AFC. Technical directives which change configuration of operational flight programs (OFP), i.e. ASC, will list the OFP CONFIG/IDENT NUMBER in effectivity notes and show the latest two authorized OFP programs. See AFC and ASC effectivity examples in Effectivity Note Example Table.

15. AIRCRAFT COMPONENT CHANGES.

Technical directives which change configuration of aircraft components are listed below:

AAC	Aviation Armament Change for armament equipment
ACC	Aircrew System Change for aircrew survival equipment
AFC	Airframe Change for aircraft structure and equipment
■ ASC	Airborne Software Change for operational flight programs
AVC	Avionics Change for airborne electronic equipment, including wiring changes
AYC	Accessory Change for mechanical system
PPC	Power Plant Change for engines

16. Component changes will list part numbers in the effectivities. See AVC effectivity examples in Effectivity Note Example table.

17. RECORD OF APPLICABLE TECHNICAL DIRECTIVES.

18. The technical directives affecting this manual are listed in the Record of Applicable Technical Directives at the end of the introduction. When all affected aircraft are modified, the before configuration is removed from the manual, and the technical directive entry is removed from the Record of Applicable Technical Directives.

19. TECHNICAL PUBLICATIONS DEFICIENCY REPORT (TPDR).

20. The TPDR (OPNAV FORM 4790/66) is the form for reporting errors and suspected omissions in the technical manuals. Reporting procedures are in OPNAVINST 4790.2 SERIES. The TPDR WP lists the TPDRs that are incorporated in the current issue of the manual.

21. QUALITY ASSURANCE PROCEDURES.

22. Procedures or parts of procedures which require quality assurance inspection are identified by the letters (QA) after the applicable steps. When (QA) is assigned to a step or a heading which is immediately followed by substeps, the inspection requirement is applicable to all substeps.

23. When doing maintenance in any area, a visual inspection of the area will be made for cracks, corrosion and security of component installation before securing the area for flight.

24. ILLUSTRATED PARTS BREAKDOWN.

25. Each illustrated parts breakdown (IPB) in this manual has a parts list and illustration for the requisition, storage, authority for use and identification of parts. The illustration is integrated with, and supports, the parts list within each work package.

26. **INDEX NUMBER COLUMN.** The index numbers in this column correspond to index numbers on the illustration.

27. **PART NUMBER COLUMN.** The part number column contains the part number assigned to each part. Footnote symbols in the part number column are defined following the last part listed in the parts list.

28. **DESCRIPTION COLUMN.** The description column contains the official nomenclature assigned to the item. If the official nomenclature is not the same as the name commonly used for the item, the common name, or portions of the common name missing from the official nomenclature, is shown in parentheses in the description column immediately following the official nomenclature. Numbered columns in the description column show subassembly, assembly, and installation relationship. This is accomplished by the location (indentation) of the nomenclature.

29. **INDENTATION.** The description column shows by indentation the assembly relationship of each part. Numbered columns in the description column, show indentation of the official nomenclature by dots and show how the various parts build up into subassemblies, assemblies and installations to make the complete assembly or installation shown in the first column at the beginning of the breakdown. See example:

DESCRIPTION						
1	2	3	4	5	6	7
INSTALLATION						
• ASSEMBLY						
• ATTACHING PARTS FOR THE ASSEMBLY (AP)						
• • SUBASSEMBLY						
• • ATTACHING PARTS FOR THE SUBASSEMBLY (AP)						
• • • DETAIL PART						

30. **COMMERCIAL AND GOVERNMENT ENTITY CODES.** Entity code or manufacturer's name and address are shown in the Description column in parentheses after the nomenclature for the item. These codes are per the Commercial and Government entity (CAGE) Handbook H4/H8 Series. No code or name indicates the item is a government standard part.

31. **ATTACHING PARTS.** Attaching parts are identified by (AP) after the nomenclature of the item in the description column. Attaching parts are listed immediately following and in the same indent as the part they attach.

32. **REFERENCE TO SEPARATE MANUALS.** Structural items which are covered in detail in the organizational maintenance, system maintenance with the IPB manuals are not broken down in the structure IPB. Reference to the applicable manual and work package (WP) is shown in the description column as (BREAKDOWN, A1-F18A()-XXX-XXX WPXXX XX). If additional items for those assemblies not covered in the system maintenance manuals are required to be listed, the statement PARTIAL BREAKDOWN

FOLLOWS appears in the first indent of the description column directly below the item to be broken down.

33. **REFERENCE TO OTHER FIGURES IN THE SAME MANUALS.** If an assembly or installation is broken down on a separate figure in the same manual, reference to the figure is shown in the description column as (BREAKDOWN, FIGXXX XX).

34. **REFERENCE TO NEXT HIGHER ASSEMBLY FIGURES.** Next higher assembly (NHA) reference from the breakdown figure to its next higher assembly figure is shown in the description column as (NHA, FIGXXX XX).

35. **USE ON CODE COLUMN.** Applicable usable-on codes are identified in this column. Definition of these codes are on the final sheet of each parts list. No entry in the Use On column indicates parts are applicable to all configurations supported by the parts list.

36. **ALTERNATE OR EQUIVALENT PARTS.** An asterisk (*) in the Use On column identifies alternate parts or equivalent parts that are interchangeable. When a letter code is followed by an asterisk in the Use On column, only the parts with the same letter code are interchangeable. An alternate part may be used when the preferred part is not available. The asterisk is omitted for the preferred part. Equivalent parts are fully interchangeable. No equivalent part is preferred over another. All equivalent parts are identified by asterisks.

37. **SOURCE, MAINTENANCE AND RECOVERABILITY (SM&R) CODE COLUMN.** The codes used in this column are assigned per NAVAIRINST 4423.3 SERIES and NAVSUPINST 4423.14 SERIES which contain definitions. A dash (-) is shown in the SM&R code column when no code has been assigned. See figure 1 for SM&R code explanation.

38. **PARTS LIST INDEX MANUAL, A1-F18AC-SRM-450.** This manual is a numerical index of part numbers for use with structural IPB manuals. The index locates specific manual, figure number and index number.

Record of Applicable Technical Directives

Type/ Number	Date	Title and ECP No	Date Incorp	Remarks
F/A-18 AFC 16	—	Electro-Magnetic Interference Protection for Leading Edge Extension Skin and Access Door (ECP MDA-F/A-18-00066)	1 Oct 84	—

Technical Publications Deficiency Report (TPDR)	INTRO
Structure Assembly - Center Fuselage Section, Y453.000 to Y488.000	015 00
Structure Assembly - Fuselage Center Section, Y383.000 to Y557.500	004 00
Structure, Engine Air Inlet - Assembly of	008 00
Structure - Keel - Fuselage Center Section, Y488.000 to Y557.500, Assembly of	014 00
Technical Publications Deficiency Report (TPDR)	TPDR
Work Package Index	001 01

WORK PACKAGE INDEX**ORGANIZATIONAL, INTERMEDIATE, AND DEPOT MAINTENANCE****STRUCTURE ILLUSTRATED PARTS BREAKDOWN - CENTER FUSELAGE****This WP supersedes WP001 01, dated 1 July 1996.**
